# INDIVIDUAL

## WELCOME AT YOUR LOCATION.

You can utilise all options for individualising our hospitality offering and create your personal event location matching your business and the occasion. We are happy to take care of the overall concept for you.

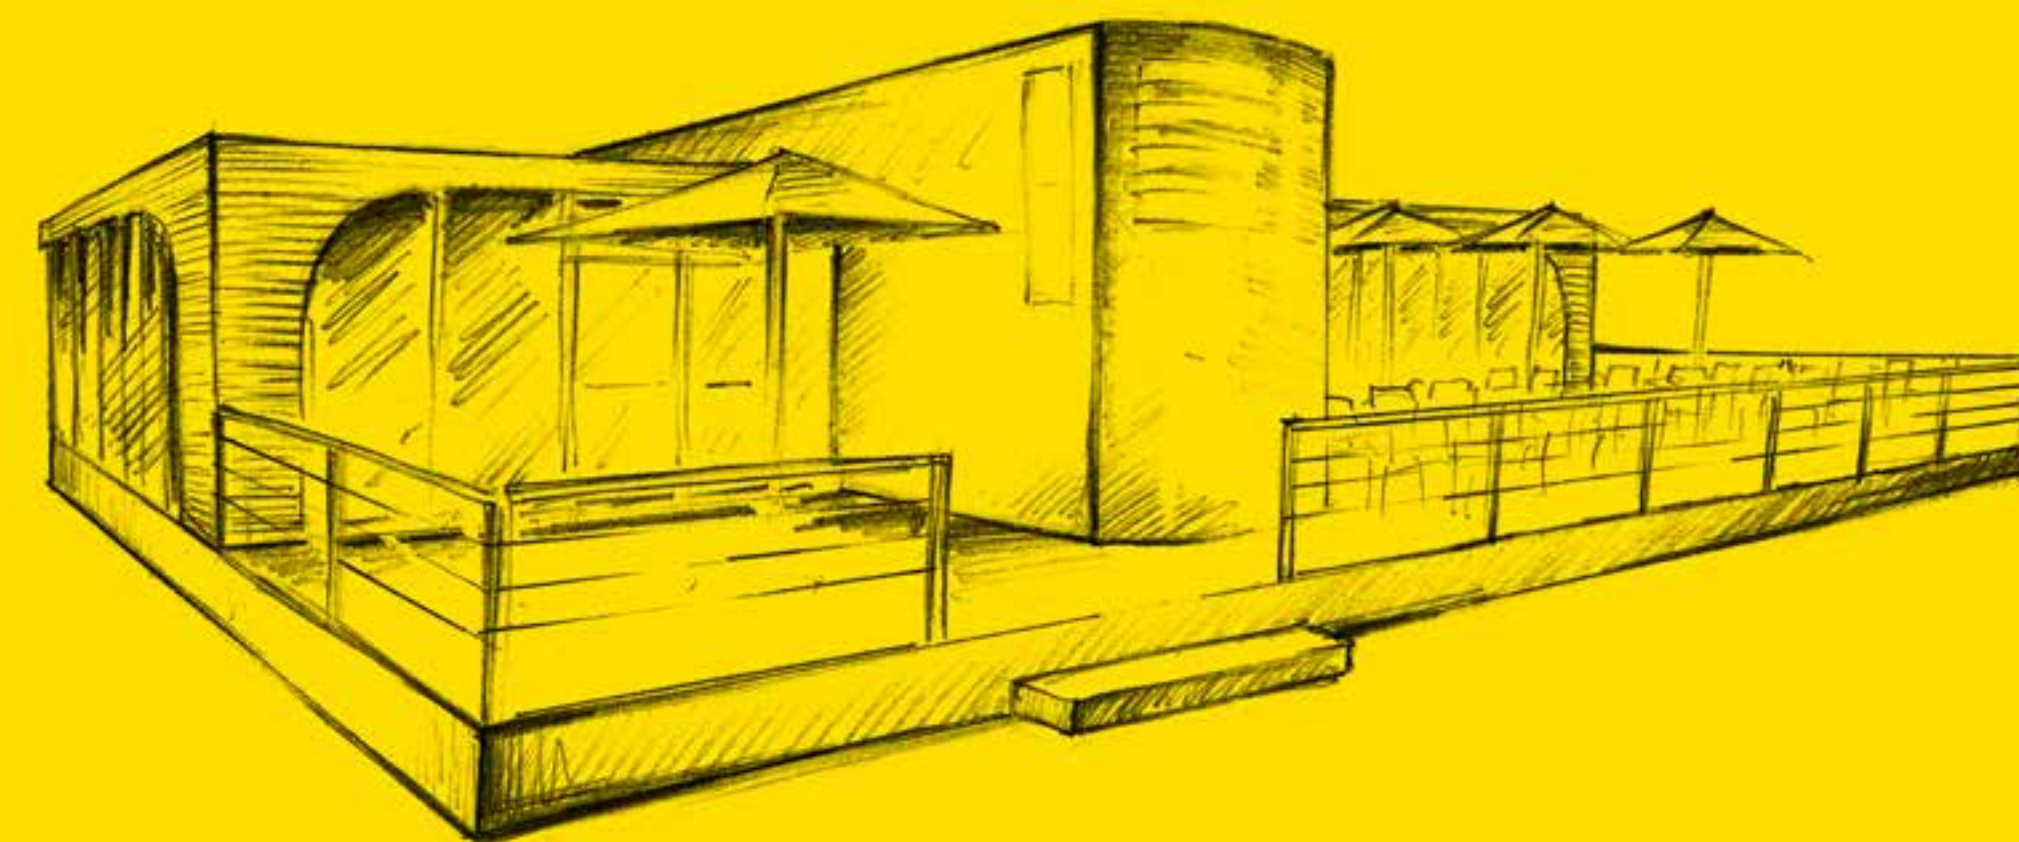

The individualisation options for our hospitality offering are almost endless: You start by choosing the size and equipment matching your event (kitchen size, room size, number of tables and chairs etc.).

As regards the setup you decide on the ambience of your location: natural beauty with wood elements or modern with a concrete or steel appearance, matching your taste, the alignment of your business and, of course, the occasion. The same applies to furniture and decoration.

The icing on the cake is the so-called branding: Naturally, you want to showcase your business at your event and utilise your logo, your colour scheme and other elements of your corporate design. We also implement this in accordance with your wishes, whether discrete or prominent.
